**FOR IMMEDIATE RELEASE**

### **SchoolOne and Etech Group Announce Strategic Reseller Agreement**

*Leading online education software companies to mutually benefit from a new alliance that will achieve rapid growth and a stronger product offering for the K-12 school market*

CLEVELAND, OH (October 21, 2009) - SchoolOne, provider of web-based student information systems, today announced a new strategic reseller agreement with the Australia-based Etech Group, makers of the Studywiz range of learning platform products.

The reseller agreement between SchoolOne and Etech Group will augment SchoolOne's portfolio of products and services and drive new growth of Studywiz products in the American markets.

Both schools and school districts will now have the opportunity to purchase a complete school online solution, including SchoolOne's new generation Student Information System (SIS), and Etech Group's award-winning Studywiz products to manage teacher and student workflow, curriculum and communications through online and mobile applications.

Bob Longo, SchoolOne President said, "Combining Etech Group's best of breed 21<sup>st</sup> Century learning environment with SchoolOne's elegant student information platform and IT competencies is a perfect fit. Our combined value allows us to present K-12 schools with a powerful end-to-end blended solution."

"We are very excited to be working with SchoolOne, a progressive company that embraces innovation and focuses on delivering outcomes and change for the better," said Thomas Hennessy, Vice President, Etech Group.

"The new alliance with SchoolOne will help build on our existing Studywiz client base that already includes schools in Texas, California, Georgia and across the whole State of Maine. Through this new relationship with SchoolOne, we will be able to expand into new states in America using their established infrastructure and services to gain further market share," Hennessy said.

Under the new agreement, SchoolOne will sell, market and host new deployments of Studywiz products in addition to its current portfolio of web-based software offerings that include IT network services, desktop support, a managed call center, state reporting and software development.

### **About Etech Group and Studywiz Products**

Etech Group offers a complete range of products for K-12 education to enable the effective integration of technology for education. These products include the Studywiz Spark Dynamic LearnSpace, Studywiz Spark Mobile, Studywiz ePortfolio and Studywiz Elementary. Studywiz products provide safe online environments to support a personalized and collaborative 21st century learning experience. Students, teachers and parents are able to access them online through any computer. The award-winning Studywiz Mobile solution connects students to their LearnSpace on the iPhone, iPod Touch and mobile devices with Windows 6.1 and Android operating systems.

### **About SchoolOne**

SchoolOne is a pioneer in Web-based school software solutions and has built and managed systems that serve thousands of users in private schools, small to mid-size public school districts, charter schools and alternative schools. Building on its expertise, SchoolOne developed a new generation Student Information System. This secure, reliably-hosted system provides an integrated and flexible solution that can be readily customized for schools or districts and seamlessly integrated with other applications. A certified E-rate provider, SchoolOne also provides technology solutions to support infrastructure needs and accountability consulting to help schools and districts improve compliance and increase revenue.
